

SMART HOME TECHNOLOGY

YOUR COMPLETE SOLUTION
from CAI VISION

Add the WOW! factor to your home, including our FREE systems design service

THE FULLY INTEGRATED SMART HOME

Putting you firmly in control!

Here's a really useful service for today's discerning property-owners looking to enhance their lifestyle with 'smart home' technology.

Planning your home is exciting and challenging. The right choice of lifestyle technology will complement your interior design to create a relaxing, entertaining and secure environment.

CAI Vision offers one-stop design and installation for all of your home automation systems, from audio visual, security and lighting control to home theatre and motorised curtains and blinds – all easily controlled by your Home Control from anywhere in the world.

And as you only need to deal with one company for all aspects of your project, we're your perfect partner.

EXPERIENCE, EXPERTISE AND THE LATEST TECHNOLOGIES

The complete solution

Uniquely, we don't just design and commission your new systems

- Multi-Room Audio Visual and Lighting Control
- Automated Curtains and Blinds
- Audio and Video Door and Gate Entry
- Access Control
- CCTV
- Intruder and Fire Alarms
- Television, Radio, Media and Satellite Distribution
- Telephone, Internet and Data Networks

We also install them and provide long term maintenance from our dedicated team.

See the results we've achieved for clients just like you on our Projects pages at caivision.com.

MULTI ROOM AUDIO VISUAL

Stylish home control - and easy to use

Control and access all of your audio and video sources throughout the home from a selection of stylish handheld or wall-mounted touch-screen controllers as well as your smartphone or tablet. No more remote cluttered coffee tables!

A multi room audio visual system allows the whole family to access their favourite music independently throughout the home.

You can share your entire movie library, streaming video and satellite channels in every room with no need for set-top boxes or multiple video sources.

HOME CINEMA

Reproduce the cinema experience
in your own home

Relax in your home cinema with premium quality components offering crystal clear picture and vibrant surround sound. With choices of projectors, screens and speakers to complement and discretely fit the decor, your cinema experience will be complete.

It'll take your breath away - and your guests' too!

LIGHTING CONTROL

Feature rich with mood presets and security integration

Create limitless lighting moods within your home, with special enhanced features for illuminating the exterior.

You'll have a bespoke selection of functions, automation and systems integration designed to your particular requirements for ambience, convenience and security.

Illuminated buttons with your chosen pre-sets make the system even easier to use than conventional lighting, then a number of energy saving features and LED bulbs help reduce energy consumption and extend lamp life.

Your lighting system can be controlled via your Home Control, tablet or smartphone, and also re-programmed remotely if you ever wish us wish to change the pre-sets.

Whether it's for atmosphere, elegance or energy efficiency, you're firmly in control.

AUTOMATED CURTAINS AND BLINDS

Manage your light and shade in style

Opening or closing your shades to maintain consistent temperature or lighting levels is one of the most popular features of any home automation system.

Your motorised curtains and blinds are easily controlled by your Home Control. They can also sense the 'mode' your home is in, responding intelligently to changing conditions to make your property more energy efficient even when you're away.

SECURITY, CCTV, ALARMS, VIDEO DOOR AND GATE ENTRY

Keeping your family and property safe

CAI Vision supplies and installs a range of high quality, tried and tested equipment from leading manufacturers.

We can integrate CCTV with access control, computer and television networks as well as intruder and fire alarm systems.

"Thank you for an excellent job of work at my home. I am most happy with the workmanship, and the best compliment I can pay you is to say my wife had no complaints."

- Nigel Lythgoe

There are currently over three thousand residential and commercial customers operating our CCTV systems.
