

SMART HOME SYSTEMS

YOUR COMPLETE SOLUTION
from CAI VISION

A man and a woman are sitting on a white sofa in a modern, bright home. The man is holding a smartphone and they both appear to be controlling smart home features. In the background, there is a kitchen island with a sink and a large TV mounted on the wall. Large windows offer a view of a green outdoor area.

WOW! Take your home automation and security systems to the highest level

THE FULLY INTEGRATED SMART HOME

Putting you firmly in control!

Here's a really useful service for today's discerning property-owners looking to enhance their lifestyle with smart home technology.

Easily controlled via your Home Controllers, tablet or smartphone, the right choice of lifestyle technology will complement your interior design to create a relaxing, entertaining and secure environment.

CAI Vision offers a convenient one-stop design and installation service for all of your home automation systems, including showroom demonstrations.

We're an independent business which recommends your best solution from the entire range of suppliers. As you only need to deal with one company for all aspects of your project, we're your perfect partner.

EXPERIENCE, EXPERTISE AND THE LATEST TECHNOLOGIES

Uniquely, we don't just design and commission your new systems

- Multi Room Audio Visual
- Home Cinema
- Automated Lighting
- Television, Radio and Satellite Distribution
- Telephone, Internet and Data
- Automated Curtains and Blinds
- Heating, Ventilation and Air Con Control
- Door and Gate Entry, Access Control
- CCTV
- Intruder Alarms

We also install them along with your cable infrastructure, then provide long term support and maintenance.

Funding? CAI Vision is FCA* approved to offer finance for all or part of your home installation project.

*Financial Conduct Authority

MULTI ROOM AUDIO VISUAL

Stylish home control - and easy to use

Control and access all of your audio and video sources throughout the home from a selection of stylish handheld or wall-mounted touch-screen controllers, as well as your smartphone or tablet. No more remote cluttered coffee tables!

A multi-room audio visual system allows the whole family to access their favourite music and 4K video throughout the home in separate audio zones.

You can share your entire movie library, streaming video and satellite channels in every room with no need for set-top boxes or multiple video sources.

With the choice of soundbars and in-ceiling, in-wall or even invisible speakers, you'll be sure to get great sound all through your property.

HOME CINEMA

Reproduce the cinema experience
in your own home

Relax in your home cinema with premium quality components offering crystal clear picture and vibrant surround sound. With a variety of projector, screen and speaker options to complement the décor, your cinema experience will be memorable *and* complete.

It'll take your breath away - and your guests' too!

LIGHTING CONTROL

Feature rich with mood presets and security integration

Create limitless lighting moods within your home, with special enhanced features for illuminating the exterior.

You'll have a bespoke selection of functions, automation and systems integration designed to your particular requirements for ambience, convenience and security.

Illuminated buttons with your chosen pre-sets make the system even easier to use than conventional lighting, then a number of energy saving features and LED bulbs help reduce energy consumption and extend lamp life.

Your lighting system can be controlled via your Home Control, tablet or smartphone, and also re-programmed remotely if you ever wish us wish to change the pre-sets.

Whether it's for atmosphere, elegance or energy efficiency, you're firmly in control.

AUTOMATED CURTAINS AND BLINDS

Manage your light and shade in style

Opening or closing your shades to maintain consistent temperature or lighting levels is one of the most popular features of any home automation system.

Your motorised curtains and blinds are easily controlled by your Home Control. They can also sense the 'mode' your home is in, responding intelligently to changing conditions to make your property more energy efficient even when you're away.

SECURITY, CCTV, ALARMS, VIDEO DOOR AND GATE ENTRY

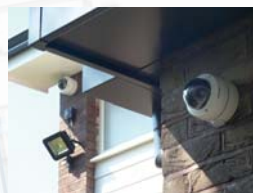

Keeping your family and property safe

CAI Vision supplies and installs a range of high quality, tried and tested equipment from leading manufacturers.

We can integrate CCTV with access control, computer and television networks as well as your intruder and fire alarm systems.

"Thank you for an excellent job of work at my home. I am most happy with the workmanship, and the best compliment I can pay you is to say my wife had no complaints."

- Nigel Lythgoe

There are currently over three thousand residential and commercial customers operating our CCTV systems.

CONTROL AND CONVENIENCE

All of your entertainment controlled with a single remote (or app), which can control the rest of the house too. Now THAT'S smart.

And the simple, elegant designs of the latest interfaces, from remotes to wall and tabletop touch screens, fit perfectly with any interior.

RELAXED, INFORMAL SHOWROOM DEMONSTRATIONS

It's one thing to talk about smart home technology, but quite another to experience it for yourself. Visit our show home and partner facilities for a closer look at a choice of automation systems, and to see how these will make your home smarter.
